FEATURES FOR

Community Hospices

InfoAnywhere is a case management system that keeps everything about your clients and their care in one place — so your team can share information, work more efficiently and provide better care, while reporting takes care of itself.

KEY FEATURES

- Electronic client records
- Grief & bereavement programs
- Intake made easier
- Hours & sessions of service
- Community palliative programs
- Volunteer management
- Care plans & case notes
- And more

Benefits for community palliative & bereavement programs

Built with guidance from front-line staff, executive directors, care coordinators and administrators at real hospices, InfoAnywhere also brings you the proven best practices of hospices across the province.

Staff find it easy to learn and simple to use. It improves the productivity and accuracy of your team, and creates a consistent way to track and report on service.

FEATURES FOR

Community Hospices

Intake made easier

Manage every incoming referral, with intake staff guided step by step through assessing and admitting clients.

Client & volunteer matching

Match clients with volunteers by needs, skills and availability, and keep an eye on caseloads so no volunteer is overloaded.

Volunteer hours

Records each volunteer's hours, the service provided and when. It even lists who to call for last month's missing hours.

Care plans

Prompts for and records care plan information as outlined by accreditation, and reminds coordinators to review plans every six weeks.

Care for family members

Tracks care given to clients' friends and family, so reports show how many lives your organization has truly touched.

Real-time reporting

See up-to-date summaries and statistics on current and past cases. Reports are ready for executive directors, boards, staff, fundraisers, HPCO and government, and update the moment your data changes.

Everyone kept informed

When someone adds a note or event for another coordinator's client, that coordinator is notified automatically — so everyone stays up to date.

Case notes

Record case notes along with who entered them and when. View them in date order and search by keyword.
