FEATURES FOR

# Outreach Hospices

InfoAnywhere is a case management system that keeps everything about your clients and their care in one place — so your team can share information, work more efficiently and provide better care, while reporting takes care of itself.

### KEY FEATURES

- Electronic client records
- Grief & bereavement programs
- Intake made easier
- Hours & sessions of service
- Community palliative programs
- Volunteer management
- Care plans & case notes
- And more

## Benefits for outreach programs

Built with guidance from front-line staff, executive directors, care coordinators and administrators at real hospices, InfoAnywhere also brings you the proven best practices of hospices across the province.

Staff find it easy to learn and simple to use. It improves the productivity and accuracy of your team, and creates a consistent way to track and report on service.

FEATURES FOR **Outreach Hospices**

### Hours & sessions of service

Tracks hours and sessions for each client, including urgency and type of service, so reports reflect the true value of your work.

### Care plans

Care plans are organized by the eight domains of care, with unlimited entries per client and a full change history showing who changed what, and when.

### Medications

Prescriptions can be entered by physicians or front-line staff. Non-physician entries need a second user's e-signature to prevent transcription errors.

### Physician orders

Doctors can enter their orders quickly and easily from home or office.

### Pain management (PPS & PPI)

Graphs historical PPS scores and calculates PPI, helping staff understand each client's pain status and history.

### Accessible from anywhere

Web-based, so staff can work from the office, home, the car or the client's home.

### Real-time reporting

See up-to-date summaries and statistics on current and past cases. Reports are ready for executive directors, boards, staff, fundraisers, HPCO and government, and update the moment your data changes.

### Case notes

Record case notes along with who entered them and when. View them in date order and search by keyword.

### Everyone kept informed

When someone adds a note or event for another coordinator's client, that coordinator is notified automatically — so everyone stays up to date.
