FEATURES FOR **Hospice Residences**

Client profiles, records & charts

One central place for every resident's information, including scanned paper files.

Smooth shift changes

Previous-shift summaries highlight care plan changes, so incoming staff know what's critical.

Reminder lists for staff

Automatic reminders at intake and key points in care, shown to the right people — so nothing falls through the cracks.

Care plans

Care plans are organized by the eight domains of care, with unlimited entries per client and a full change history showing who changed what, and when.

Flow sheets

Record flow sheet data far more efficiently than paper, with custom sheets designed by each hospice.

Intake & wait list

Guides intake step by step and builds a live wait list of suitable clients, making it easy to prioritize the most critical needs.

Medications

Entered by physicians or staff, with dual e-signature checks for non-physician entries. Physicians can verify meds from their phone.

Physician's orders

Doctors can enter orders quickly from home, office or hospice.

Electronic MAR

Record administrations and see your schedule with our tablet-based eMAR tool.

Pharmacy integration

Send digitally signed faxes about medication changes straight to the pharmacy — no printing.
